

NEW!
Available Fall 2011!

Professional Learning with **RK PUBLISHING**
Join us to solve the mysteries of **second language learning**...

What does Professional Learning look like at RK?

We realize that educators live very busy lives, so we have structured our professional learning tools accordingly:

- easy-to-follow, short, but comprehensive learning opportunities for teachers
- concrete applications to the new **RK Core French Elementary Series, Club mystère**

YES... IT'S THAT EASY!

Our new *RK Professional Learning Centre* includes:

1. Print component: *Unlock the Mysteries of Core French Teaching*
2. Online training videos

1. Unlock the Mysteries of Core French Teaching

This comprehensive document guides educators through current trends and research in second language learning: oral language development; critical thinking, balanced literacy, gradual release of responsibility, differentiated instruction, The Language Portfolio... and much more!

Practical applications to our new elementary Core French series, *Club mystère*, are included.

2. Online Training Videos with the Experts!

Real teachers demonstrate how to effectively use *Club mystère* with beginning FSL learners.

Some topics that we address in our 15-20 minute training videos (TV):

How to...

- structure lessons that focus on oral development
- apply the principles of the Common European Framework of Reference to the elementary Core French classroom
- foster critical thinking in the second language classroom
- promote the use of strategies
- develop listening and learning
- address the role of reading and writing within an oral program

The RK list of training videos will grow each year to reflect new ideas and opportunities for learning.
